Report as condensed are as follows

The year has been one of Parsonage building and general repair - with a goodly degree of success in the salvation of souls

Nearly every church having enjoyed a season of revival - our field superintendent has assisted no few churches in such work -

To strengthen the already existing 31 churches in the two Y meetings, so as to make them thoroughly self-sustaining, and an aid has been our first thought,

This include Evangelists Efforts, building of parsonages and general repairs -

Two Parsonages has been built and paid for

1955

Except ^{one out} 155 dolls on Geneva -

one new Baptistery put in and used,
Have made during the year, 27 trips - ranging from two
days to 5 weeks.

have aimed to keep in touch with the ministry, thus
aiding our churches to come in touch with
pastors in the shortest time,

Attended Gen Conference ^{of vital importance to our} served on two important
committees one western work - Home Mission -

met with the Gen. Con. Board in session after Gen. con.
had adjourned - and time was given to me to answer
questions and make explanations about our interests
out here - was enabled to secure an appropriation
of two hundred dollars for Kansas and Nebraska field
work.

The Report of your field Sept. on the floor of Gen. Con. ^{Board}
elicited some interest out of which we hope much,
we have supplied as best we could our Thompson
church during the year with a short series of meetings
this spring, conducted by Bro McElroy - Pastor of the
Long Branch church - assisted Sister Marks at Smithfield
in a two weeks meeting as also Bro Morrow in
our Summit church spending some two weeks
with him in special effort,

This is a report of the smaller work done
a touch here and another there cannot be reported.
And they must be left for the Recording Angel,
we only say we did the best the bodily strength
and circumstances would allow.
