

Christians live and serve in a new world today but a rapidly changing one which will be vastly different tomorrow. For Christians to give effective witness for Christ, it is very important for them to know the type of world in which they live. Notice especially these five things which characterize today's world.

1. <u>Rapid</u> social change. Customs and mores that have been accepted as traditions for years are being discarded. Every standard, even explicit biblical commands, are being replaced by relative concepts.

2. War. War within nations and between nations is an ever present reality. Our own United States has been in three great wars within the lifetime of twentyfive year olds.

3. <u>Rapid transportation</u>. Man has reached speeds above 4500 miles per hour in our atmosphere. Speeds above 15,000 miles per hour are common in outer space. Huge airplanes are now being built to transport several hundred people.

4. <u>Mass</u> communications. News events, such as the assassination of President

Kennedy, are a matter of household conversation in practically every country in the world in a matter of minutes. Radio, television, and newspapers disseminate news at an amazing rate of speed.

5. <u>Population explosion</u>. George Washington was president of a nation numbering around 4 million. The total world population when Jesus was born was approximately one-half or less of that amount. Today's world of over 3 billion is expected to double within the next 35 years.

This picture of the world makes us realize somewhat of the great problem now facing Christian education. More workers, workers trained in the latest techniques of communication, workers of strong character and conviction, workers with the greatest leadership ability are all needed to witness in today's world.

Oklahoma Bible College is only a small part of the total Christian education movement, but I feel that this College will play a vital role in preparing tomorrow's leaders among Free Will Baptists.

Students See "Action"

A total of 124 persons were won to the Lord through the Christian Service Department of OBC during the first semester of 1968-69, according to a report by Director Eugene Workman. These decisions were witnessed by students as they engaged in various phases of the Christian Service Department.

A total of 2,568 tracts were distributed by students during the semester. They also delivered a total of 553 messages, lessons and songs while engaged in their Christian Service assignments or in regular worship services.

The practical aspect of applying that which is obtained in the classroom is an important phase of a Bible college education. Each student is assigned to a group in which he participates on a regular basis.
