ECLIPSES FOR THE YEAR 1897.

There will be two eclipses this year, both of the sun:

I. An Annular Eclipse of the Sun, Feb. 1, which will be slightly visible in the southern portion of New England, and also visible in the southern part of the United States, throughout South America, and in the Southern Pacific Ocean.

II. An Annular Eclipse of the Sun, July 29, visible throughout the United States as a partial eclipse, and in portions of South America, Africa, the Atlantic and Pacific oceans. Begins 8h. 51.8m. A. M.; middle 9h. 59.8m. A. M.; ends 11h. 8.2m. A. M.

EXPLANATION.

Formerly the computations were naturally expressed in local time, this being practically the same for any phenomenon for places in the same latitude.

The introduction of the new time system, however, demands a change, so that a table of correction becomes necessary, as given below.

The calendar quantities are for the meridian and latitude of Boston, expressed in the present time system. For the other places, given in the table below, add to or subtract from the calendar times, as expressed in said table.

For places not in table, find the correction from the place nearest in longitude to the one in question, and apply this. A still closer result would be obtained by finding two places in the table, one a little east and the other a little west, and estimating the correction between.

Each person had better mark on the margin of his REGISTER the addition or subtraction for his own locality, and apply this correction whenever he looks for the time of any event.

The Eastern time belt ends, and the Central begins, near the western borders of New York and Pennsylvania.

For places still using the old local time, no use is to be made of this table, but 16 minutes are invariably to be added to the REGISTER time.

TABLE.

Time to be added to or subtracted from the calendar times:

For Augusta, Me.	subtract 4 min.	For Buffalo, N. Y.	add 31 min.
" Lansing, Mich.	" 6 "	" Cleveland, O.	subtract 17 "
" Detroit, Mich.	" 11 "	" Chicago, Ill.	add 7 "
" Concord, N. H.	add 2 "	" Madison, Wis.	" 13 "
" Montpelier, Vt.	" 6 "	" Minneapolis, Minn.	" 29 "
" Albany, N. Y.	" 11 "	" Des Moines, Ia.	" 31 "

FREE BAPTIST STATISTICS.

EXPLANATION.—A star (*) affixed to the name of a church signifies that no official report has been received.

† shows that a preacher has been ordained or licensed, or a church received, the past year.

Pastors of churches have p affixed to their names. The names of unordained ministers are printed in italics.

☞ Quarterly Meetings for which no statistical returns have been received for this number of the REGISTER are marked (*No returns*). In such the churches, preachers, and the whole number of members are inserted as in last year's REGISTER.

For convenience in referring to them the Quarterly Meetings belonging to each Yearly Meeting and the churches belonging to each Quarterly Meeting are arranged alphabetically.

The statistics are printed as furnished by the church clerks and prepared by the Q. M. clerks.

Under "Reported Contributions" will be found what amount of money each church has contributed for the benevolent societies. All contributions which cannot be credited to the churches are put under "Miscellaneous" in the "Recapitulation" at the end of the statistics.

CORRESPONDING SECRETARY'S REPORT.

FOREIGN DEPARTMENT.

In common with all foreign missionary societies we have been passing through a crisis. Lack of funds has compelled retrenchment in our work where it was desirable to enlarge and push forward. Many native helpers have been discharged, and our force would have been sadly depleted had not our missionaries from their private resources helped to sustain the workers whom they felt we must retain. We began the year with an actual indebtedness of $3000. During the ten months covered by this report four quarterly remittances have been sent, and the treasurer's accounts closed with a balance on hand of $1389. This result was attained by adhering to the policy of sending only the money contributed for the work, regardless of the needs over there. The remittances have not been adequate to meet the actual demands, and the appeals of our India treasurer, while they have been characterized by patient submission, have been filled with tearful forebodings as he has queried, "What are we to do?"

In order to sustain the work at our prominent stations, to say nothing of occupying *new* and important cities in our field, there is need of sending as soon as possible a married man to Balasore, one to Midnapore, and another to Bhimpore. But before meeting this necessity there is the burning question, "Shall we sustain the limited force now in the field?" As was anticipated at our last annual meeting, Bro. Miner, compelled by ill health, returned with his family early in our missionary year, and has taken a pastorate at Evansville, Wis. Mrs. Boyer, who stayed on so resolutely after the death of her noble husband, returned a few weeks ago after almost ten years of service. In obedience to the request of the Conference Board and the call of duty, Bro. Stiles left his wife and children, and last winter went to resume work at Midnapore. Bro. Griffin, on account of the state of his wife's health, deemed it unwise to return to the field, and has taken a pastorate at Elmira, N. Y. The present active force of missionaries supported by the General Conference consists of seven men, six married and three unmarried women. While our force has been reduced, we have no debt, and we may confidently expect that on the present scale of expenses we shall very soon be able to relieve the stress for funds in the field. In the time of adversity we are to consider. A few considerations may be formulated as follows:

1. In accordance with the great law of cost and compensation we are learning, with other missionary organizations, that the financial stringency had been to some extent a blessing in disguise. It has emphasized the importance and almost compelled the necessity of a more strenuous effort on the part of our native Christians and churches on the line of self-support. We have reason for devout thanksgiving that our Christian brothers and sisters in India have so fully imbibed the idea of Christian liberality, and that they have so promptly and heartily co-operated with us in the effort to have their churches self-sustaining. We have tried to have them understand that this is not to relieve us from *doing*, but to enable us to extend our work to others dead in sin, and that they with us are debtors to the unsaved. The last annual report from India states that out of thirteen churches and branches five of the largest are or expect soon to be quite independent of mission aid, and some are helping others.

2. We at home should not fail to learn what God by his providences would teach us. We can easily keep out of debt, as we should, but shall *we* learn no new lessons of self-denial, lessen our contributions, and throw the whole burden upon those whom we are morally bound to sustain as they have gone to do our work? Shall our economy begin with our benevolences, or with our luxuries?

3. We all need more of the mind and spirit of Christ. If Christ dwelleth in us we shall have a willing mind, and, though our gifts may not be large, God will accept according to what we *have*, but how can he excuse us for doing nothing! A little from everyone, and more from those who are able, is the secret of a full treasury.

For an interesting and valuable *resume* of a year's work in our India field send to the corresponding secretary for a copy of the annual report.

HOME DEPARTMENT.

On the first of September, 1895, this department owed $600, beside $350 on unpaid appropriations. These sums have been paid, and $1900 on the appropriations for the current year, which in full amounted to $3727, leaving $1827 unpaid at the time of this report. The old situation is not essentially changed. Nearly all the states keep all their home mission money, and the rest retain the larger share for their own work. Much the larger part of our home missionary work is being done outside of this organization. We may not quarrel with this state of things, but it does seem that hereafter there should be incorporated into the report of the corresponding secretary at least a summary of the work done by the state and yearly meeting organizations. Our work is one, and should be reported through the corresponding secretary of the Conference Board. But it is of vast importance that our churches sustain the home missionary work which will be attended to only by the Conference Board. This Board looks over the whole field, and ought to be better able than any local officials to decide where a given amount of money will accomplish the most for the denomination and the cause of Christ. Your secretary is firmly convinced, that, as soon as the action of the General Conference will allow it, the whole division of home missionary funds between the Conference and state

treasurers be relegated to the individual donors. Our people will then contribute for their state work or for the work of the Conference through its Board. They will be better satisfied to know for what they are giving and who is to dispense their gifts.

Our denominational upbuilding depends very largely upon the home missionary work done through the Conference Board, and the Board can *do* only as it is sustained by the co-operation and contributions of our people. Your secretary earnestly recommends and urges that appropriations be not made beyond what we can reasonably expect to pay during the year, and that in making appropriations a few points be selected which promise the largest return for money expended. We have but little money to use, let us put it where it will do the most good. In this way we shall command the confidence of our constituents.

EDUCATIONAL DEPARTMENT.

If we may find a starting-point anywhere in our denominational work at home and abroad, it must be in praying for, seeking out, encouraging, and helping to qualify gospel ministers. Give us the right kind of men, and we shall have the needed money for our work. Great as is our need of funds in all directions, the first and greater need is for men and women consecrated to God. Consecrated leaders will not lack a following nor a support. It is to be feared that we are not following the scriptural injunction, nor the example of our fathers, in praying for more laborers to enter the harvest field. And if we pray can we expect to be heard unless we first give our own selves and *our* children into the hands of the Lord? Why is it that so many Christian parents prefer not to have their own children enter the noblest of all the professions? Undoubtedly God calls a sufficient number to enter the ministry. It is a fearful thing to be disobedient to the heavenly vision. The Conference Board should strive to make its influence felt upon the hearts and consciences of our people until they shall listen for the voice and call of God to their own dear ones, and feel it the highest honor to have them chosen as ambassadors of Christ. We should seek to stimulate the *spirit* of prayer, that God may very plainly by his Spirit call his own workers. Then I firmly believe, that, as God calls a young person to give himself to this holy office, so he calls some one or more to go speak to that young man. For many reasons there needs to be a systematic searching out and encouraging of those whom the Lord has chosen. Every pastor should be a recruiting officer for the King's service. Then when the candidates are found they should be encouraged to strive for the best qualification possible under the circumstances. It is no truer in any calling than here that "haste makes waste."

It is a settled policy that all students in our higher institutions of learning shall receive their instruction largely as a gratuity. Though the per cent will vary in different institutions, it is safe to say that scarcely any college student pays in tuition more than ten per cent of the cost of what he receives. There are reasons too patent to be rehearsed here why the divinity student should have additional assistance, and this has become the fixed policy of the Christian denominations. This aid to our students has not been very munificent. Our theological schools would be greatly aided in their efforts to provide an efficient ministry if our contributions for the students were considerably increased. Our library fund should be very much

increased, the income of which is used to purchase books for the theological libraries at Hillsdale and Bates. We should aim to have it understood that the Board is not only willing but anxious to receive gifts and legacies for general educational work aside from aid to beneficiaries. With gratitude to God for what we have been enabled to accomplish, and with great humility because of the many failures, we look hopefully to the future.

ARTHUR GIVEN, *Corresponding Secretary.*

FIELD SECRETARY'S REPORT.

From Oct. 1, 1895, to Aug. 17, 1896.

My last report made to the full Board was at Winnebago last October, though I have made two reports since to the executive committee at their meetings in Boston in February and May.

Since the General Conference closed I have made three trips east and three west, and have done work in nine states, traveled 13,650 miles during eight months and a half, or during the last twelve months 16,250, all in connection with the work as field secretary. I have visited five Yearly Meetings, eleven Quarterly Meetings, and forty-five churches, beside meeting with boards and committees without number, conferring with individual workers, and doing an amount of work that cannot be detailed in a report like this.

I have tried to keep no track of the number of letters I have received or written, but can say that my correspondence is not as large as it should be, owing to the fact that I am away nearly all the time, so that the dust covers desk and papers, and constant jogging on the road and attending meetings are not conducive to letter-writing, and it is almost impossible to work up the necessary correspondence among the churches and the workers. I sincerely regret this. I did suppose that my duties would require more office work, and so thought a number of the Board, some thinking it would require half, and some at least a third, of my time; but thus far the chance I have had to work up a systematic correspondence has been slight. In fact, there has been nothing in connection with my work that I could dignify as an office or as correspondence, so constantly have I been on the road. I speak of this because I think the cause could better be served by the field secretary giving more of his attention to correspondence; because he can only visit one place at a time, and through correspondence he can touch ten times as many points.

Kansas and Nebraska.—The committee of three to whom was left the Kansas and Nebraska matter in dispute thought that I should go there and look the ground over, meet the boards and representative workers, explain the thought of the Board with reference to their agency work, and, unless there was too much opposition, go as far as possible in carrying out the wishes of the Board, and consummate the plan by which the two states were to become one field; and that W. P. VanWormer, then agent for Kansas, should be agent for this combined field, and be responsible to the Conference Board, but work in harmony with the General Conference Board and the two state boards. This I did, being there six weeks on my first trip, visiting the remotest corners of the denominational territory, and consulting with the boards and representative workers. I found perfect harmony in Kansas and acquiescence in the General Conference Board plan. I found a somewhat different state of things in Nebraska. There was at first some objection on the part of the

Nebraska board to our plan, and in Gosper Co. Q.M., away on the frontier, but none anywhere else. Ministers, churches, and Q. M's were anxious to fall in with the Board's plans. I had many conferences with the Board and the workers, held many meetings and explained as I was able, and poured oil on the waters until substantial harmony and acquiescence in our plans were secured. Bro. VanWormer has now been the agent of Kansas and Nebraska since the latter part of January, and has been over the whole field thoroughly. In July he wrote me that if possible he wanted me to be present at the Nebraska Yearly Meeting, occurring in the bounds of the Gosper Co. Q. M., Aug. 12-16. I received also urgent invitations from others. It seemed like a heavy expense, but, after the worry and expense that had begun such a work, it seemed too bad to desert it. From this time onward we anticipate little or no trouble. Bro. VanWormer has the work well in hand and is well received by the people generally, and has more than met our expectations. I am glad he is here to report his work. I ask for him your interest and attention, because this matter of our frontier work is important to us as a denomination, and requires all we can do and the best we can do for it.

Cairo.—According to instructions I held a ten days' institute in the city of Cairo, assisted by Bro. Mowry, state evangelist, and Pres. Burgess. The days were given to lectures and talks, such as would be practical to the colored people, and useful in their preaching and ministry, and the evenings were given to popular addresses, such as would interest a wider class. The colored people ask for another, and have already taken steps to hold one next year. And I may say that in my judgment these institutes are useful and practical, and, while they do not meet all the needs that a school would meet, they are the best substitute of anything that could be devised at present. These institutes are needed to be held in other quarters. Bro. Gordon represents a lively section of country, where by actual count in his Yearly Meeting there are thirty-five young ministers. An institute would be very helpful to these young men, and Bro. Gordon bears a request here for such an institute to be held some time in the near future within the limits of his Yearly Meeting. There are points in Missouri where such an institute would be of inestimable value.

But to return to Cairo. In connection with the institute we gave up one whole day to the discussion of the school. There are two points seriously thought of—one at Cairo, near the city park, half a block offered for $3000, well located. The other is Mound City, seven miles up the Ohio from Cairo, a place of 3000 population; half a block, covered with fine old trees; would make a splendid campus, and all that could be desired. This town has better morals than Cairo. Cairo is one of the very worst cities morally in the country. Mound City would give the colored people their site. Cairo wants $3000 for theirs, and citizens might raise enough to buy it for them. But in either case they want buildings costing not less than $15,000 put upon them. While the colored people talk much, are seemingly interested, say they can and will do considerable financially to make a school, it is a grave question whether we could confidently look for much from them. It would doubtless take $30,000 to make a good school anywhere in the Cairo mission. No less amount can succeed. There would be no such thing as the school becoming self-supporting

ever; at least not for a generation. I think it was the opinion of Bro. Gordon, who was present and a member of the committee, also Bro's Mowry and Burgess, that we ought to proceed carefully in the consideration of a school. One thing is rendering such a school less necessary, and that is the free school system, which is obtaining more and more. The colored free schools have as fine teachers and the same number of grades in Cairo as the white schools. The same thing is true to some extent in surrounding towns. We visited these free schools and were surprised and delighted with what we saw. With these free schools and frequent institutes and a white missionary we believe our Cairo mission can and will prosper. As soon as possible we must put a white missionary in the field. These people are not yet capable of self-government, and this applies to the goverument of churches as well as to anything else. We should be continually on the lookout for the right man.

Waterloo.—I have visited Waterloo twice since the General Conference, and spent a Sabbath there, holding services morning and evening. The property is ours, and we shall be troubled no more. But the membership is very, very weak. I had less than twenty out at both services. The social standing of our church is nothing at all; indeed, there has been so much fighting and trouble that we should have to begin all over there. I should be glad if the church could be restored. It might be moved to a new lot, remodeled, and so begun anew. This is the least we can do and expect any success. The property is worth $4000, has been worth more than that. It has cost Bro. Lawrence $500 to fight this case through the courts. This is another instance in proof of what somebody once said, that bad ministers have contributed more to the ruin of some of our prosperous fields than all other causes combined.

As to Ministers.—With the corresponding secretary I heartily believe that our denomination needs a better ministry, without casting any reflection on the present ministry. I am more and more convinced that we must have a better ministry. A denomination can rise no higher than its ministry. How to secure a more practical, more talented, and more righteous ministry is a thing this Board must deal with sooner or later. An abler ministry is the gateway to a more efficient and successful denomination.

The Apportionment.—The apportionment plan is a good one, and there can be nothing substituted that is half so good; a specific sum for each church, and all the contributions taken going to make up that sum. There is unity and simplicity in it, it is easy to be understood — but it isn't working. There is a hitch somewhere. I have not met six churches this year that practise or even know or ever heard of the apportionment plan. I went over New York, and they knew nothing of it. I have invariably asked the question, "Are you falling into line and raising your apportionment? Is your church? Is your Y. M.?" Somewhere our plans don't carry. We are sure the apportionment was made and sent out by your committee to the Y. M. clerks, but they fail of getting to the churches. And evidently something must be done about it.

That 100,000 Dollars.—(1) When the matter was discussed through the papers, it was discussed by individuals. The Board was not responsible. I wrote as an individual always. (2) Movements of this kind never arise in boards or corporations, but begin with individuals, and are pressed home upon those in authority. (2) This movement moved the people as nothing else has in ten years of our history. (4) It was unfortunate that at the high-water mark we could not have put some authority and plan behind it and gone into the field with it. (5) It is not too late. The denomination will expect the Board to say something regarding it. To postpone is to kill it. (6) If approved I would suggest that no cast-iron limit be put upon the time we have to raise it. (7) That in raising it we do not disturb the regular apportionment of $50,000, nor interrupt the regular established methods of raising money; that it be raised by wills, bequests, and private donations, but not publicly or by collections.

As to Committees.—One word about committees. We may have the best plans in the world, unless the committees appointed to do the work do it and do it speedily, we lose nearly everything. Too many things concerning this Board are pigeon-holed and forgotten. Committees should do this work at once, and not allow these months to evaporate into "innocuous desuetude."

As to an Orderly Arrangement of Y.M's.—I have never in the ten years I have been in agency work been so embarrassed over the contrariness of appointments as this year. I have been compelled, if I did any work at all, to oscillate from one extreme point to another, so that traveling expenses have been larger than they will be again probably for ten years to come. I do not think any orderly arrangement can be made at present, owing to the fact there are always local difficulties in the way of any change.

Finally, we have lived through another year of the greatest financial depression the country has seen for two generations. Other denominations have piled up debts, and we have paid ours. We are more than holding our own. I am not well informed about eastern churches, as I early obtained consent of the executive committee to spend all my time upon the western field this year. I have not spent quite all my time in the West, but practically I have. So far as the West is concerned we feel encouraged. Ohio, Indiana, Michigan, Illinois, Wisconsin, Kansas, and Nebraska, especially, have been blessed with not only many revivals, but many additions to churches. In Bro. Gordon's Yearly Meeting 545 have been actually added to the church this year, four churches organized, two of them in large cities; three new churches dedicated. In Wisconsin 235, in Kansas and Nebraska 250. Bro. Fulton says more than 500 in Ohio. It has been a general time of revivals through the West, and the best of it is there has been more care than usual to secure converts for the churches. The denominational sky, while it is not all ablaze with great successes, has in it a bright light which gives confidence and hope to the patient toiler.

I find the above account correctly cast and properly vouched.

DANIEL G. WOOD, *Auditor.*

Auburn, R. I., Aug. 18, 1896.

NOTE.—The General Conference, in 1894, assumed the care of the invested funds transferred by the three benevolent societies. At that time the interest had defaulted on some of the investments, and some others have since ceased to yield an income. There will undoubtedly be a loss on the principal in some cases. It would be impossible to tell the value of some of the loans until the times improve. It is due to those who have had charge of the funds in the past to say that not infrequently people have left by will to our benevolent societies collateral that has proved a poor investment. It is also due the present management to say that they are not responsible for any of the loans that are now of doubtful value.

Estey New Portable Organ

This is not a child's organ, as the illustration might suggest, but one which we have prepared with especial reference to MISSIONARY WORK. It is built in compact form, with close fitting outer covering, warranted to withstand all climatic changes.

The best test of the merit of this instrument is the large number which have already been sold for MISSIONARY WORK. Each instrument is delivered with our guarantee that it will be found fully satisfactory, both as to its musical quality, mechanical capacity, and durability.

Indigestion

Horsford's Acid Phosphate

Is the most effective and agreeable remedy in existence for preventing indigestion and relieving those diseases arising from a disordered stomach.

Dr. W. W. Gardner, Springfield, Mass., says: "I value it as an excellent preventive of indigestion, and a pleasant acidulated drink, when properly diluted with water and sweetened."
