## THE PULPIT PLATFORM.

As SPECIALISTS we design the entire interior of the CHURCH BUILDING, especially those parts which most affect the artistic result. The PLATFORM is the center of observation; why should not this be treated in an artistic manner?

Suggestions offered as to how to modify old platforms and secure such results.

Correspondence solicited.

## ECLIPSES FOR THE YEAR 1899.

There will be five eclipses this year, three of the sun and two of the moon.

I. A Partial Eclipse of the Sun, Jan. 11, invisible in New England, but visible in the north-western part of North America, the northeastern part of Asia, and the Pacific ocean.

II. A Partial Eclipse of the Sun, June 7 and 8, invisible in New England, but visible in the northern portion of North America, Europe, and Asia, and in the regions around the North Pole.

III. A Total Eclipse of the Moon, June 23, invisible in New England, but generally visible—the beginning in the eastern parts of Asia and throughout the Pacific ocean and the western portions of North America; and the end in Asia, the central and western Pacific ocean, and the eastern parts of Africa.

IV. An Annular Eclipse of the Sun, Dec. 2, invisible in New England, but visible in southern Australia, and also in the South Pacific and Indian oceans in the regions around the South Pole.

V. A Partial Eclipse of the Moon, Dec. 16, visible in New England—the beginning likewise generally visible throughout the eastern parts of North America, Europe, Asia, and Africa; and the end generally visible throughout the whole of North America, South America, Europe, and Africa. Begins 6h. 44.9m. P. M.; middle 8h. 26m. P. M.; ends 10h. 6.7m. P. M.

### EXPLANATION.

Formerly the computations were naturally expressed in local time, this being practically the same for any phenomenon for places in the same latitude.

The introduction of the new time system, however, demands a change, so that a table of correction becomes necessary, as given below.

The calendar quantities are for the meridian and latitude of Boston, expressed in the present time system. For the other places, given in the table below, add to or subtract from the calendar times, as expressed in said table.

For places not in table, find the correction from the place nearest in longitude to the one in question, and apply this. A still closer result would be obtained by finding two places in the table, one a little east and the other a little west, and estimating the correction between.

Each person had better mark on the margin of his REGISTER the addition or subtraction for his own locality, and apply this correction whenever he looks for the time of any event.

The eastern time belt ends, and the central begins, near the western borders of New York and Pennsylvania.

For places still using the old local time, no use is to be made of this table, but 16 minutes are invariably to be added to the REGISTER time.

### TABLE.

Time to be added to or subtracted from the calendar times:

For Augusta, Me. . . . .	subtract 4 min.	For Buffalo, N. Y. . . . .	add 31 min.
" Lansing, Mich. . . . .	" 6 "	" Cleveland, O. . . . .	subtract 17 "
" Detroit, Mich. . . . .	" 11 "	" Chicago, Ill. . . . .	add 7 "
" Concord, N. H. . . . .	add 2 "	" Madison, Wis. . . . .	" 13 "
" Montpelier, Vt. . . . .	" 6 "	" Minneapolis, Minn. . . . .	" 29 "
" Albany, N. Y. . . . .	" 11 "	" Des Moines, Ia. . . . .	" 31 "

## PLATFORM.

1. Every member of every Free Baptist young people's society entirely consecrated to God, and his life guided and controlled by the Holy Spirit. Only as we are thus equipped can we be of any great use.
2. Recognizing our relations to God, we will lay aside a definite part of our income, at least one-tenth, to be used as he directs.
3. Believing that Christ's command to "go ye into all the world and preach the gospel to every creature" is binding upon us, we will do all we can by our lives, our prayers, and our pocket-books to obey.
4. Realizing the importance of having our Free Baptist young people thoroughly united and at work, we pledge our hearty support to the United Society of Free Baptist Young People, and will use our best efforts to secure the payment by our societies of an amount equivalent to ten cents per member.
5. Taking our motto, "In the name of Christ, forward!" and going, "not by might, nor by power, but by my spirit, saith the Lord of hosts," we will make this the best year for the ingathering of souls we have ever had.

## CONSTITUTION OF UNITED SOCIETY.

ART. I. *Name.* The United Society of Free Baptist Young People.

ART. II. *Object.* The object of this society is the organization of the young people of this denomination for definite Christian work.

### FORM OF BEQUEST.

I give, bequeath, and devise to the General Conference of Free Baptists, a corporation under and by virtue of the laws of the state of Maine . . . . . (here insert the amount, and state for what purpose the money is to be used).

## Report of the General Conference.

### FIELD SECRETARY'S REPORT.

I am now closing my fourth year as Field Secretary, and eleventh of agency work. During the three years since General Conference I have journeyed nearly 49,000 miles, directly and solely in the interests of the denomination. Have been twice in New England, the Central Association, the Shenandoah valley; three times in the Cairo mission; twice in the south, southwest, and northwest; twice in the Indiana and Michigan Associations, and once in the Ohio State Association. Besides I have attended the annual meeting of the General Baptists in southern Illinois in '96, the student volunteer convention, four meetings of the Executive Committee, and three annual meetings of the Board. At these gatherings I have usually spoken once or twice upon those features of our work most necessary to emphasize, and have brought up General Conference matters in their business meetings for discussion and adoption. Have also spent two months of each year in correspondence and office work, the Executive Committee thinking my time could be thus more profitably spent.

#### THE FIELD AND ITS WORK.

I know of no places where F. B. home-mission enterprises are more needed or could be pushed with more promise of success than in the New England cities. We are glad to note that much is being done in this direction. A number of such interests have been planted during the last decade. The Massachusetts Association has built eight churches in a comparatively short time, having now nine churches in and around Boston, eight in the vicinity of Providence, and four in Lowell.

*Harper's Ferry Mission.*—I am glad to report that there is a persistent and measurably successful attempt to enlarge the work in this mission. Bro. Newman has organized since last General Conference a church at Hagerstown, Md. A fine church building is going up, and will probably be inclosed this fall, substantially free from debt. This is a most promising point. Bro. Belt's church in Baltimore has risen to a membership of about three hundred, and his work is taking on a more permanent and solid form. Bro. Jenkins is endeavoring against odds to hold the church at Harrisburg, and Bro. Fisher, one of the best colored preachers in the valley, is struggling to gather a church in the city of Washington, while Bro. Wainwright this last May dedicated a neat chapel in a town four miles north of Charlestown, with a fine country surrounding it.

*The Cairo Mission.*—A great need here is that of a wise missionary among these people. There is nothing to hinder us from entering into possession of the whole country for two hundred miles about Cairo. For three years we have held an annual institute for colored ministers and pastors, and they have steadily grown in favor. Something in the way of education must be provided for our colored pastors.

I have visited the General Association of the South twice, and the Cumberland Association twice, and the western division of the Stone Association once. These white Freewill Baptists of the south spring from a different denominational ancestry than the Free Baptists of the north. There are between forty and fifty thousand of them; not well organized, uneducated, but true to Freewill Baptist instincts; hospitable, religious, virtuous, but not enterprising in carrying on religious work. They have no missions, no colleges, and no representative publications. Their native ability is marked, their capacity for religious enjoyment something marvelous. They believe intensely what they believe, and are especially tenacious upon footwashing. Otherwise they are identical with us in both polity and doctrine.

In the John Wheeler and Union Associations the case is somewhat different. There they do not practise footwashing, and approach nearer our methods and ideas; and the basis of union for the Southern General Association does not make footwashing an issue, but leaves it optional. This Southern General Association is an attempt to unite the various associations of the southern states. Its success is not yet assured. If this attempt fails after this year the Tennessee, Virginia, and North Carolina Freewill Baptists will perhaps offer to join the General Conference. That we should come into some closer and more fraternal relations with these brethren seems desirable.

*The West.*—From Chicago west, northwest, and southwest we have many churches. The hard times, the successive drouths, and continual changes of population have taxed the very existence of these churches. But few new ones have been planted for five years; it would have been folly to do so. There has been a life and death struggle to keep alive what we already have. We have made appropriations to a number of those struggling interests, and must continue to do so for a while or lose them altogether.

I take great pleasure in noting the efficient and faithful work done by our western agent, Bro. Van Wormer. A good preacher, a wise and careful counselor, thoroughly loyal, with an open eye to the whole denomination, it is a very great sacrifice to give him up. But we must immediately seek for another man to take his place. To withdraw from the field now would be suicidal and cowardly.

I wish to emphasize home mission work. The very fact that we are getting only three cents a member for actual home mission work shows an appalling want of appreciation of our home missionaries, or the opportunities here at home to spread Christ's kingdom. I pray God we may feel a shame that shall make our blood tingle to our finger-tips.

Co-operation is one of our most serious needs. Union with others may be desirable, but let us have union first with ourselves. The apportionment is evidently a hard thing for our people to adopt. This arises from a lack of co-operation. I hope

the time will come when Free Baptists will depend upon one another rather than be independent of one another. In fact, unless we stand up together we shall fall down apart.

It is fully time now after six years to get down to system in raising our benevolences. On last Home Mission day the average per church for home missions was thirty-seven cents. In consequence we have churches which must close and dismiss their pastors because there is no money to pay them. Less than a hundred churches contributed anything last Home Mission day. Where are the other churches?

One great need is money. Consecration and co-operation would secure it without oppression and without hardship.

There is a crying need for more ministers. It has become a grave question what we are going to do. I have one hope. God must be calling enough to supply the demand.

We need to seek a closer union with all liberal Baptists. That resolution favoring and inviting union with the Free Baptists of Nova Scotia and the Free Christian Baptists of New Brunswick, passed by the Executive Committee of the Conference Board, should include the Freewill Baptists of the south and the General Baptists of the west, and the Church of God.

We need to get back to apostolic unity. The church is fundamental, is the unit, is the organization above all others for Christians, and not to be superseded by any other.

Then, lastly, we need a missionary baptism, an enduement of power for missionary work. It is good fighting all along the line, and the battle is the Lord's, and his will be the glorious victory.

H. M. FORD.

## CORRESPONDING SECRETARY'S REPORT.

The work in India is fully set forth in the annual report from that field, which I herewith submit, and it hardly seems necessary to reproduce that information in this report, since any one who has not a copy of the India report can have one for the asking. Several of our heroic missionaries have suffered severely from prevalent fever, but from latest reports nearly all are much improved. Early in the year Rev. E. C. B. Hallam and his wife were compelled, very much against their own wishes, to retire from the field.

They reached this country in October, and are living at Keuka Park, New York. May the Lord, if he wills it, grant to Brother Hallam a restoration of physical strength equal to his desires for service. Later in the year Miss Edna C. Wile, who was sent out and supported by our friends in Nova Scotia, having a physical ailment that was aggravated by the climate, was ordered home. While we pray for our missionaries in the field, let us remember no less sympathetically those whose hearts are there, but who from force of circumstances beyond their control are retired from the battle and are enduring "the harder task of standing still." We can hardly recall anything of our work in India without a picture before us of our veterans, Dr. O. R. Bachelier and wife. For fifty-eight years they have planned and toiled and prayed for the salvation of India. May the God whom they have served be their strength and comfort, and may their hallowed benediction rest upon us and upon the people of far-off India. The openings for work in our field were never so propitious as now. Word just comes from Missionary Wyman that a rich man at Chunderkona, an important and populous center twenty-five or thirty miles from Midnapore, wants us to open missionary work in the place, and offers to give us land at a very small rent, and to put in fifty dollars for every one hundred used by us in necessary buildings. He also offers some houses rent free for six months for our native workers. A postscript adds, "Send along another missionary for the place." The work never promised better returns. The call to enter in and reap was never so imperative. There is no better chance for us in any part of the heathen world to make ourselves felt in bringing the human race to Christ than in the very place where by the providence of God we have been sowing the seed for over sixty years. How are we meeting our responsibilities to that people to whom the Lord sent us? Are we doing all that our Commander has a right to expect?

Some claim that we are giving about up to the limit of our ability for foreign missions. Last year 90,000 Free Baptists gave for foreign missions, through the General Conference treasury, \$12,926, or fourteen cents each. If only one-quarter were givers, then the average would have been fifty-seven cents each. When we remember that a few individuals gave from one to four hundred dollars each the average from the rest was still less. Does any one care to question the statement that the great mass of our well-to-do Free Baptists spend a great deal more upon harmful,

personal indulgences than they give for foreign missions? What we lack in order to occupy and cultivate our India field is not financial ability but more of the missionary spirit. What is the missionary spirit? It is perhaps hard to analyze and define, but it is very nearly synonymous with the Christ-like spirit. It is the spirit of loyalty to Christ, to his person, to his truth, and to the highest interests of his world-wide kingdom. One who is under the dominion of that spirit cannot be at ease and make no earnest endeavor to make Christ known to the millions who are perishing. Let one who lacks this spirit take his Bible, read and study and pray, until he comes to see in the light of God that the one purpose of the whole book is the redemption of the human race, and having grasped the plan of God he will be ready henceforth to take his God-assigned place, and, inspired by the grandeur of the enterprise, strive to excel in his own little part of it. Says Dr. Lamson, president of the American Board, "More and more the feeling is gaining ground that it is necessary for a church to have an interest in the whole world in order that it may successfully accomplish any work in its own little sphere. It is the power that is behind a great purpose that has to appear in our little work. A man may love his home and country and not love the world. No man ever loved the world with Christlike love who did not love his country and his home. It is necessary for us then, in order to secure for our individual churches and local work the greatest power and the greatest interest and the greatest success, to have the passion for all the world, for all men, and for all that is in man." God's plan is one, and it is not for us to say that work is more important on one part of this great plan than upon another. What we need to learn and insist upon is that an interest in the world-wide plan is essential to the best work anywhere. Interest in work away from home will always help the work at home. A late professor of Princeton Theological Seminary wrote, "If I were asked how a church, however small or poor, would be most likely to rise and grow, what would be the surest means of attaining edification and strength, I would say with confidence let it begin in good earnest to pray and exert itself for sending the gospel to the benighted and perishing." I believe in that principle most sincerely. Because I see the wonderful opportunities in our land for helping world-wide evangelization, because I am intensely interested in having better work done at home, I urge that first of all we seek to know the will of God in reference to his universal plan; that we heed the last commission of our Lord, and then, having met the condition, rely upon the promise that he will be with us all the days even to the end of the age. Theories aside, does it work that way? Very many churches have been rescued from threatened oblivion, and numerous others date their beginning of prosperity from the time when they came to realize the wider purpose of God, and that their church was first of all an agency for the working out not of its own life, but the consummation of God's plan for the world. The trouble is not in doing for one's own church, or for a local body of churches, but in making that the end of all work and interest and aspiration. The church that seeks only its own upbuilding and lives only for its own life is struck with death, and is no longer a spiritual force in the world. The same is true of an association or yearly meeting. "Whosoever will save his own life shall lose it." I plead for more and better home mission work, but it will never be secured by ignoring the wider claims and aiming for any local up-

building as an end. There is in all local work a natural tendency toward a localization of interest which is sure to defeat the very end sought. The opportunities for home-mission work in this country are simply immense, and the Conference Board, looking over the whole field and recognizing the magnificent openings, is constantly defeated in what it would do because it has no money. The limited amount of money furnished our General Conference treasury for extending and strengthening our work in this country makes it almost a farce to attempt anything in that department. We feel assured that our churches could easily, in addition to what they wisely furnish their state boards, double or treble the amount to be used by the Conference Board. We believe that a wise policy of self-defense will prompt our churches to devise more liberal things for missions in the United States. The Conference Board has done what it could, and it is hardly worth while to repeat here the information contained in the treasurer's report. The largest appropriation was to our work at Storer college, a work to which our denomination has been so thoroughly committed.

The year closed with a debt of \$1700 and several unpaid appropriations. The Fidelity church in Cleveland, after receiving assistance for a few years, has during the last year been self-sustaining, and has also become one of our strong supporters through its offerings to our benevolent funds. Any report of our denominational home-mission work must be very defective that does not recognize the good work done by the various state boards. An attempt has been made to secure for this report a summary of such work, with partial success. The corresponding secretary of the Maine Association, after referring to the hard times, states that there is much real success to be reported. In the last three years there have been 1465 baptisms, and a net gain in the membership of 891. The young people's societies are steadily on the increase in numbers and efficiency. There are now 105 societies. There are 13,000 in Sunday schools, and a resident church membership of about 10,000. In the past three years they have built eight churches and rebuilt three more; have built and acquired four parsonages. The state is increasing in population and Free Baptists are seeking the centers, so that there has been a decided gain in city and village churches. The Massachusetts Association is devoting itself heroically to church building. They have the last year paid to four different interests the sum of \$1021, and they have hired and loaned to two interests \$5800. The new church in Boston is completed and was dedicated in September. The Rhode Island Association helped the last year five churches to the amount of \$525, and paid an arrearage of \$438. The Illinois Central Yearly Meeting reports two churches organized, one of which has built and dedicated a new house. They supported an evangelist and expended \$212 in aid of their work. A partial report from Ohio states that a new church costing \$2,000 was dedicated last fall at Vinton, for which enterprise the churches of the Gallia and Meigs Quarterly Meetings gave liberally. In the Meigs Quarterly Meeting work is progressing upon the church at Addison. The Ohio River Yearly Meeting has aided these interests the last year some \$250. Wisconsin has an endowment fund of about \$10,000, the interest from which, with an assessment of eighty cents per resident member, enables them to aid their weaker churches. All churches but two have pastors. Minnesota aided churches at Wi-

nona, Winnebago City, and Clear Lake to the amount of \$233. Our western agent, Rev. W. P. Van Wormer, states that the work in the west is hopeful. Since the last General Conference thirteen new pastors have been settled in the states of Nebraska and Kansas. In the Northern Nebraska Yearly Meeting all the churches save two have pastors. One new parsonage has been built this year. Some new men have taken up work in the Nebraska Yearly Meeting and the work is improving. Nebraska and Kansas are recovering from the effects of the long-continued drouth and the financial panic, and will be ready for better things in the future. The work in Missouri needs continued effort and supervision. We have over 5000 members in the state, and many opportunities are open for energetic and consecrated men. There have been many revivals. Our increasing population, the large numbers of immigrants, enabling us to do foreign mission work at home, the city problem and the problem in country towns as well, obedience to our Lord's command, all urge us to larger giving and increased service for God in this country.

The educational department of our work seems to receive too scanty attention. After leaving to our educational institutions the provisions for higher learning, there remains the very important work of furnishing students for our theological schools, and rendering them such assistance as is necessary. The financial receipts have been about as usual, but inadequate to meet the needs. Say what you will about missionary work, our denominational success depends upon our ministry, and our ministry is what, under God, we make it.

If we have too few bright young people in our divinity schools it is because we, the members of our churches, fail to pray for and seek out prospective laborers and send them along, with the assurance that we will help at least to relieve them from financial anxiety during their course of study. If we are to have good pastors in ten years from now we must have them in training, and in the case of young men we must not necessitate any short cuts to the pulpit. We absolutely need more money for the assistance of those who are struggling to fit themselves for the holy calling. We also need to greatly increase the number of those who are in a few years to be our pastors, missionaries, and leaders. Our institutions of learning are prosperous.

*Bates College.*—The last three years have been marked by healthy growth. Each year has brought increased numbers both to the college and to the divinity school. Substantial additions have been made to the fund. The libraries and laboratories have been appreciably enriched. A professorship in history and economics was added last year. Assistants have been employed to supplement the instruction given in ancient classics, chemistry and physics, and rhetoric and English literature. Beginning with the next term, systematic, daily instruction in elocution will constitute part of the regular work. There is great interest in collegiate and intercollegiate debates, and success has been won in three of the four contests with other institutions. Our oldest buildings are Hathorn Hall and Parker Hall. The first was renovated and much improved last year. The second is now being furnished with steam-heating arrangements, and in great part remodeled by throwing the rooms into suites, each consisting of a study and sleeping-room connected. The

gymnasium is now heated with steam and has been well supplied with new apparatus. An accomplished instructor in physical culture is employed, and a fine athletic field is being made ready for use next year.

Roger Williams Hall, erected for the divinity school four years ago, has contributed not only to the facilities for student residence and instruction, but to the beauty of the campus. The religious life of the college was never more cheering, each of the four classes maintains with large attendance its own prayer-meeting, and the general meetings are often crowded. Conversions are frequent. The numerous lectures given by eminent scholars and speakers at the divinity school are of great interest and value; and the ministers' institute now held annually in Roger Williams Hall is a growing factor in the life of our community and the improvement of our ministry. The graduates of the college are taking high rank in their various callings, and in educational work are everywhere found in the front rank. For all these evidences of growth we thank God and take courage. Yet growth is giving new emphasis to long-standing needs, and is creating opportunities that speedily pass into demands. The income from the endowment is sadly inadequate, and the annual expenses can be met only by appealing to the generous appreciation of the friends of Christian education. At least one hundred more scholarships are urgently needed. The college should have at least two additional professorships, and the divinity school cannot wait much longer for its fifth professor.

Three new buildings should be erected at once—a library, a dormitory for the young women of the college, and a hall for the literary and religious societies and for public exercises. Bates has faithfully and fruitfully used the talents already intrusted to her; and it is difficult to see how Free Baptists can better strengthen their efficiency in all kinds of Christian work than by doubling her equipment and her resources.

*Hillsdale College.*—The hard times have affected the attendance of students, principally in the preparatory department, the past year, but the prospect is better for next year. The last graduating class numbered 31, of which seven were from the theological department. A field agent has been employed under authorization of the Conference Board. Dr. Dunn has closed a long and active service in the college, and Dr. J. T. Ward has been elected to the theological faculty. Worthing divinity hall is now the home of the theological department. A reception room and ten study rooms have been furnished in the building and all are occupied.

*Keuka College.*—This institution is now doing regular college work with an efficient faculty. Its funds have been considerably increased. An electric railroad eight miles in length, running close to the college, establishes close connection with Penn Yan and trunk lines of railroads. The property is free from incumbrance and the patronage by way of students is encouraging. The addition of Rev. E. C. Hayes to the faculty is significant of growth and gives promise of future enlargement.

*Parker College.*—The college has entirely removed its indebtedness, and President Lawrence's connection with the institution is a pledge that debts will not be any part of its curriculum.

*Rio Grande College.*—In the two last years the college has taken advanced steps. The attendance has been larger than ever before. The trustees have put a steam-heating plant in the college this summer costing \$1345. The friends of the college have undertaken to increase the endowment, and a number of small gifts have been received amounting to nearly \$1000.

*Storer College.*—This institution has had one of its most successful years and promises better things for the year to come. Our success as a world-saving force depends upon our devising more liberal things and remembering that our duty is not limited by our own abilities, since these are supplemented by God's infinite resources.
